A popular spot for getting wowed or soaked amid natural splendor, Niagara Falls attracts curious spectators from around the world. The splendid main attraction - more than six million feet of water cascading over a rocky crest - sits partially in the United States and partially in Canada.

Venues like the Aquarium of Niagara offer fun and engaging alternatives, after or in between visits to the Falls. Outdoor recreation such as hiking, biking, and fishing are available at the Niagara Falls State Park.

The storied history of attempts to conquer the majestic Falls is captured at the Daredevil Museum; the Schoellkopf Museum concentrates on the history and geology. There's more to the Falls than, well, the Falls, including a wide array of dining options, from budget to upscale. This awe-inspiring region makes for an exhilarating and multi-faceted getaway.

Insider tip: The Falls are also beautiful at night, and fireworks are displayed every Friday night at The Falls.
